

# BARN LIGHT FINISHES

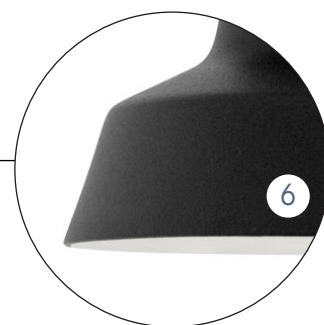

## 100-BLACK vs 105-TEXTURED BLACK

Bold, dramatic, and eye-catching: it's no wonder why everyone's favorite color is black! Our black finishes offer everything you want from this versatile color. However, there are a few subtle aesthetic differences between the two. 100-Black features a smooth glossy surface while 105-Textured Black's matte finish has a coarse tactile quality.

### 100-BLACK

### 105-TEXTURED BLACK

#1: Industrial Guard Sconce, 100-Black, #2: (2) 8" Barn Light Arlington Wall Sconces, 100-Black, #3: Color Sample - 100-Black, #4: (3) 8" Eclipse Cord Hung Pendants, 105-Textured Black, TBK-Black Cotton Twist Cord, #5: 16" Original Warehouse Gooseneck, 105-Textured Black, G1 Straightarm, #6: Color Sample - 105-Textured Black

#### Which finish is easiest to clean?

Great question! 100-Black's smooth, glossy finish is easier to clean. Because of its slightly abrasive surface, the 105-Textured Black finish may pose a challenge to clean with paper towels. To clean this textured finish, we recommend an occasional soap-and-water wash with a cloth towel.
