A LETTER FROM BRYAN & DONNA

We thank you for your interest in our company and the craftsmen who create our products the good old-fashioned, American way – with the highest quality materials and meticulous attention to detail. At Barn Light Electric, concepts like customer service, ingenuity, and creativity are at the forefront of our work.

In reviving the lost art of manufacturing porcelain enamel lighting, we have brought back what once was a thriving component of the American economy.

Popular back in the 1930’s when barn-style lighting was prevalent on American farms and in factories, porcelain lighting faded away when less expensive manufacturing techniques were created. Money was saved, but quality and durability were lost. Today, our metal artisans use a hands-on process to create beautiful and functional works of art for the home and for commercial businesses. This rare manufacturing process guarantees the highest quality for our customers. No two porcelain shades will ever be exactly alike – they are true originals. And we have merged these classic designs with the very latest in LED technology to give you the option of highly efficient and environmentally friendly lighting. We love what we do at Barn Light Electric and are proud to create a unique form of lighting that will add timeless beauty to any space and provide a lifetime of use.

Bryan & Donna Scott
Founders of Barn Light Electric Co.

BEHIND THE SCENES
A glimpse into our manufacturing facility illustrates the hands-on approach we take when constructing our fixtures. Each and every step of the process is completed with careful attention paid to the finer details. Our team of talented metal spinners, enamellers, powder coaters and assemblers work diligently to ensure the highest quality products for our customers.
“My goal was to take these fixtures and keep them American made, to be proud of what we do.”

— Bryan Scott, Owner of Barn Light Electric
We love people with a Passion.

And just like our fervent devotion to vintage-inspired lighting, the people at Rafterhouse are dedicated to the careful renovation and preservation of post-war era ranch homes. Austin King and business partner Chris Liles have focused their Phoenix, Arizona, business on transforming these spaces into modern-day dream homes.

“We hate seeing ranch homes lose their charm,” Austin says. “We strive to build, enhance, and upgrade these homes while staying true to their historical roots and the character and integrity of the neighborhoods they reside in.”

A recent project, located in the Arcadia neighborhood of Phoenix, involved a thorough remodel where a “substantial chunk” was demolished and another 1,000 square feet of living space was added. In the dining room, the design team chose a pair of 16” Porcelain Sinclair Shades in a bright white finish. These fixtures were customized with a standard black cord and a polished brass socket with a paddle switch.

“A good chandelier is hard to find, so we wanted to go with a double pendant — something we had never done before,” Austin explains. “The farmhouse style of the pendants paired well with the rustic, natural feel of the large, truss-like beam crossing the great room. The white color pops appropriately with the gray wall color and the brass socket ties in well with the brass fixtures and cabinetry hardware in the adjacent kitchen,” Austin says. “The Sinclair Pendant is a bit softer and gentler in shape than a traditional barn style shade. This allows the vintage Edison style bulb to be seen and the light to disperse a bit more evenly across the dining room table.”

IVANHOE® SINCLAIR PENDANT

Finish: Multiple
Mounting: 8’ of Standard Cord
Ceiling Canopy Dimensions: 5” Dia.
Max Wattage Per Socket: 60W Standard Incandescent
Number of Sockets: 1
Use: CSA Listed for Dry Locations

As shown in 250-White / 16” / BP-Brass Socket and Paddle Switch/ SBK-Standard Black Cord
An icon of early 20th century barn lighting, the rugged gooseneck lights making up the Goodrich® Collection benefit from the revival of porcelain enamel. Using a process that was once a staple of the lighting industry, we hand-spin each shade from commercial grade steel then apply three layers of porcelain glass. Fired at extremely high temperatures, the result is a durable finish and glistening surface—never fading or corroding. Easily customized with finish color, gooseneck arm style, and other options like wire cages and cast guards, these gooseneck lights take on the look of any space. Stylish enough for any residential décor and rugged enough for commercial settings.
THE GOODRICH® UNION
Finish: Multiple
Mounting: Multiple

The most rugged ceiling pendant you can buy, our collection of Benjamin® Stem Mount Pendants are suitable for dry, damp or wet locations thanks to the sturdy stem mounting. Featuring shades that are hand crafted from commercial grade steel, this collection of ceiling pendants offers classic RLM styling with hints of modern design. Easy to customize with a variety of durable porcelain enamel finish colors, a Benjamin® Stem Mount Pendant will offer a lifetime of use in both residential and commercial settings with a high-gloss finish that will never fade or corrode.

IVANHOE® CORD HUNG PENDANTS

Porcelain enamel lighting was traditionally used in exterior or industrial applications because of its durable finish. The Ivanhoe® Collection of cord hung pendant lights brings the durability of porcelain enamel into the home with a variety of shade styles, finish colors, and cording options. Cord hung pendants are ideal for kitchen islands, dining rooms, bedrooms or even screened porches. Dress up this high-gloss, low-maintenance porcelain enamel pendant with a colored cotton twist cord.

Guard in 975-Galvanized & Smoke Crackle Glass /
SWH-Standard White Cord

ALSO AVAILABLE IN LED
Rooted in early 20th century lighting designs, the Wheeler™ Collection of wall sconces unites our most popular shade shapes with wall-hugging mounts. The narrow profile of these wall lights lends barn styles to the tighter areas of your home, such as hallways, entryways and powder rooms — along with outdoor areas. Each shade is coated with a base layer of porcelain glass, and is then fired in a high-temperature oven to solidify the bond between the steel and porcelain. Two more layers — in your choice of color — are added to create a high-gloss, low-maintenance finish. Crafted to provide years of service, Wheeler™ Wall Sconces withstand installation in commercial applications elevating the décors of boutique retail stores, restaurants and office spaces.
THE KAO SCHOOLHOUSE FLUSH MOUNT

Finish: Multiple
Mounting: Flush
Fitter Material: Ceramic Porcelain
Max Wattage Per Socket: 100W Standard Incandescent
Number of Sockets: 1
Use: CSA Listed for Damp Locations

As shown in 311-Jadite / Small Glass with Single Stripe
THE KAO COLLECTION

Inspired by Pass & Seymour’s Alabax line, our Kao Collection makes its introduction with a modern twist. Prominent throughout the 50s in hotels, hospitals and homes, these solid porcelain ceramic lights fit any home. The vibrant, lively finishes available for this collection will elevate any décor with a fashionable new look.

More than light fixtures

The Porcelain Enamel Dinnerware Collection

Beautiful yet functional, our collection of porcelain enamel dinnerware is hand crafted to last a lifetime.
First row, from left: Porcelain Enamelware 8 oz. Cups in 250-White / 860-Graphite & White Graniteware; Copper Cup 8 oz.
Third row, from left: Porcelain Enamelware Dessert Plates in 150-Black with 850-Graphite Top Finish / 455-Cherry Red with 150-Black Top Finish / 760-Cobalt Blue & White Speckles with 750-Cobalt Blue Top Finish
Fourth Row, from left: Copper Nesting Bowls; Enamelware Bowls in Mixed Colors / 750-Cobalt Blue
With a look indebted to the fixtures found on early 20th century farms, our selection of gooseneck lights partners classic RLM warehouse shades with vivid finish colors. A worthy addition to any residential or commercial space, these gooseneck lights are made in the United States using only commercial grade materials. Customize these wall lights to mirror your personal style using our selection of powder coat finishes, gooseneck arm angles and optional wire cages and cast guards, giving your space its own distinct look.

The newest location of Woody’s Bar-B-Q in Cocoa, Florida, exudes a warm and friendly atmosphere created in part with rustic guard-and-glass pendants, wall sconces, and chandeliers. American made from commercial grade materials, these rugged light fixtures feature a galvanized finish and contrasting red cast guard that can withstand the high-traffic of the restaurant. The result is a unique look that becomes an integral part of the overall design and branding of Woody’s.

VINTAGE INDUSTRIAL LIGHTING

Our collection of Vintage Industrial Lighting spans years of historic designs from the turn of the century to the industrial age. These rugged utilitarian light fixtures bring a nostalgic touch to traditional homes, urban lofts, or commercial businesses that want lighting above and beyond builder-basic fixtures. From bare bulb pendants and Mason jars to re-purposed acetylene tank tops, these vintage reproduction lights will bring a touch of history to your space.

Number of Sockets: 1
Use: Non-UL Listed

As shown with 12” Stem / 40W Squirrel Cage Nostalgic Light Bulb

THE VINTAGE BALL PERFECT BLUE MASON JAR PENDANT
Socket & Canopy Finish: Zinc Lid with Blue Ball Jar
Mounting: 8’ of Standard Cord | 6’ of Cotton Cord
Ceiling Canopy Dimensions: 5” Dia.
Features: Original Vintage Ball Perfect Mason Blue Jars
Condition: Each Jar Is An Original, and Finishes Will Vary
Max Wattage Per Socket: 60W Standard Incandescent
Number of Sockets: 1
Use: CSA Listed for Dry Locations

As shown with TBK-Black Cotton Twist Cord

THE URBAN RAW COPPER PENDANT
Finish: Solid Raw Copper
Glass: Frosted Square Shade Included
Ceiling Canopy Dimensions: 5” Dia.
Number of Sockets: 1
Note: Non-UL Listed, Manufactured with UL Components.

As shown with 12” Stem
The time-honored appeal of barn lighting has received a contemporary update, now incorporating the latest LED innovations from Cree—a leader in the field. These LED modules emit a warm, white light similar to incandescent bulbs, however, our LED lighting is about 85% more energy efficient than more traditional sources of light. That means our LED fixtures consume less electricity to produce the same amount of light, allowing for unprecedented environmental sustainability and long-term financial savings.
**THE STARFIRE RADIAL WAVE LED SCONCE**

- **Finish:** Multiple
- **Mounting:** Sconce
- **Wall Canopy Dimensions:** 6 ¾” Dia.
- **LED Lumen Comparison:** 850LM Compares to 60W INC. Bulb / 1250LM Compares to 75W INC. Bulb / 2000LM Compares to 150W INC. Bulb
- **LED Color Temperature:** Cree TrueWhite® Technology, 2700K
- **Number of Sockets:** 1

SCHOOLHOUSE LIGHTING

Born when lighting manufacturers began concealing bare bulbs behind ornate glass shades, these iconic designs were originally found in public buildings and government offices. We’ve recreated these timeless looks with milky opaque and clear schoolhouse shades. The clear shades offer more brightness, while the opaque option casts a warm, inviting glow. Popular as both stem mount and cord hung pendants, these American-made fixtures are also available as wall sconces, multi-light chandeliers, goosenecks and bathroom vanity lights.

THE MASCOT SCHOOLHOUSE SCONCE

Finish: Multiple
Mounting: Sconce
Backplate Dimensions: 6 ¼” Diameter
Max Wattage Per Socket: 100W Standard Incandescent (Bulb Not Included)
Number of Sockets: 1
Use: CSA Listed for Damp Locations

As shown in 100-Black / Small Clear Glass with Triple Stripe
In addition to our porcelain and powder coat shades, we manufacture many of the same shapes and designs in elegant brass and copper. Whether you’re trying to preserve the appearance of a historic building, renovating a trendy, downtown loft, or making over a classically-styled farm house, copper and brass go with nearly any design scheme or color palette. These metals transcend particular styles and eras, remaining fashionable in any space as its look morphs and evolves throughout the years. The recent rebirth in brass and copper’s popularity is largely due to this flexibility, along with an innate warmth and sophistication.

Beginning as a flat piece of metal, each shade in this collection is meticulously crafted by our team of dedicated metal spinners. When allowed to age naturally, the raw copper develops into a rich patina. However, polishing the copper regularly preserves its initial shiny aesthetic. To play up the vintage appeal for both copper and brass, opt for one of the stylish finish options.

THE BOWIE COPPER WALL SCONCE

Finish: 995-Raw Copper
Mounting: Sconce
Backplate Dimensions: 5 ¼" Dia.
Max Wattage Per Socket: 60W Standard Incandescent
Number of Sockets: 1

As shown in 997-Raw Brass / 12” / Canopy & Hex Cover / 6” Stem
Located in downtown Titusville, Florida, in a 100-year-old building that once housed the local hardware store, Playalinda Brewing Company chose to honor the roots of the space by preserving its historical characteristics. Classic reproduction schoolhouse lighting is suspended from the decorative tin ceiling and copper lighting provides a soft glow to complement the 40-foot-long custom copper bar. Hand crafted from first quality materials, these fixtures provide a harmonious accent to the architectural details of this rustic space.

### THE RICHFIELD 2-LIGHT COPPER STEM MOUNT PENDANT

Named after The Space City’s go-to beach, Playalinda Brewing’s tasting room lends a laid back atmosphere where you can meet old friends and easily make new ones.

Clockwise, starting from top left: (1) Multiple Indy Industrial Copper Pendants wrapped around a circular base to create a unique, custom fixture; (2) Porcelain Enamel “Welcome” Sign, $29.00 ea.; (3) The Bowie Copper Wall Sconce, 6” in 999-Oil-Rubbed Copper
The Brass Bowie Wall Sconce, 8” in 997-Raw Brass

WALL SCONCES

Representing the perfect union of function and style, our line of wall sconces brings a touch of light to undersized spaces. Contributing to the looks of front porches and hallways, as well as commercial venues like intimate restaurants, sconces hug the walls more closely than goosenecks and other options. Echoing your individual tastes, this collection encompasses the rustic designs of the Atomic Age, the industrial-chic aesthetic developed in SoHo, and the vintage styles of early 20th century barn lighting. Built-to-order, these fixtures are easily customized with our arsenal of finish colors and accessories.
**First row, from left:** Atomic Topless Industrial Guard Sconce in 975-Galvanized; The Bowie, 6” in 605-Rust; The Laramie, 12” in 400-Barn Red. **Second row, from left:** The Old Dixie, 11” in 400-Barn Red; The Fargo in 100-Black with 975-Galvanized Arm, Wire Cage and Paddle Switch; The Starfire Radial Wave, 12” in 700-Royal Blue, Plug-In Option with CSUW-Blue & White Cloth Cord. **Third row, from left:** The Ashland, 12” in 300-Dark Green with CGG-Standard Cast Guard & Ribbed Glass; The Laramie Wall Sconce in 200-White; The Wesco, 12” in 975-Galvanized with Wire Cage.

CHANDELIERS

Spanning the full array of shade styles we produce, our assortment of chandeliers is harmonious with chic, modern design sensibilities and more traditionally-styled spaces. Often used to define a room’s overall sense of style, chandeliers demand attention as they project light downward—becoming the centerpiece of any décor. Suitable for residential spaces—like dining rooms, game rooms and kitchens—our chandeliers are also built to withstand installation in high-volume commercial locations such as restaurants, pubs and retail venues. Choose from simple two or three-light chandeliers to larger eight or ten-light pendants for the ultimate style statement.

OUTDOOR LIGHTING

Our selection of exterior lighting houses durably constructed fixtures serving any commercial and residential needs. Designed to fulfill practical purposes, post mount lights are typically used to brighten parking lots, sidewalks, patios, docks and other outdoor areas.

Not limited to making outdoor areas safer, more functional spaces, exterior lighting also adds a distinct personality to your home. These lights are loaded with curb appeal, in many instances becoming the focal point of exterior spaces.

The following sets forth the Barn Light LLC® (“BL”) terms and conditions for the purchase and sale of BL products. All customers making purchase orders hereby acknowledge and agree to be bound by the terms herein. All capitalized terms and phrases found herein which are not the lead word of a sentence are defined herein or in BL’s Terms and Conditions of Use located at www.barnlight.com/terms-of-use.html, which are incorporated herein by reference.

**SALE CANCELLATION, REPLACEMENTS, & RETURN POLICY**

Purchase orders may be cancelled by the customer only within twenty-four (24) hours of placing the purchase order.

To make a cancellation, the customer must provide notice of cancellation by telephone to 1-800-407-8784 or by e-mail to sales@barnlight.com.

If a cancellation is timely made but the product has already begun production, a 20% fee will be incurred.

**RETURNS**

All fixtures are NON-RETURNABLE.

The customer must inspect each shipment and notify BL in writing of any damage to products which arrive damaged in transit within 24 hours of delivery, after which BL shall not replace, repair, credit, or otherwise assume responsibility for any damaged fixture.

In the event that BL delivers a product which is different than the product selected by the customer in the purchase order, BL shall bear the cost of return shipment via common ground carrier to and from the customer. However, the customer is responsible for otherwise complying with the terms of the Sale Cancellation and Return Policy.

BL is not responsible for any damage incurred during return shipping, including approved replacements.

BL assumes no responsibility for issues, problems, or expenses, which may arise from a submitted purchase order which contains errors, and any costs associated with same are the customer’s sole responsibility.

**FREIGHT POLICY**

All freight is Freight on Board from 320 Knox McRae Dr., Titusville, FL 32780

All orders over $2,500.00 shall be shipped Freight Allowed within the Continental U.S. “Freight Allowed” shall mean BL pays for Shipping and deducts the cost of same from the invoiced amount.

Freight Allowance shall not include additional fees including without limitation lift gates, delivery area surcharges, address changes or corrections, and other non-standard charges, as determined at the discretion of BL. These charges are the responsibility of the customer. Any freight charges or outstanding invoice not paid will be considered delinquent.

All shipments will be sent via standard Ground service, unless other shipping is arranged for by customer, and agreed upon by BL, prior to shipment. BL cannot be held responsible for conditions beyond its control, such as severe weather or carrier service interruptions.
TERMS & CONDITIONS

CREDIT TERMS
Commercial customers may apply for Credit Terms by fully completing and submitting a Credit Application once such customer has either paid for orders of $5,000 or demonstrated to BL’s satisfaction that they have the potential for $5,000 in recurring annual purchases. The Credit Application is available by calling 1-800-407-8784 or by e-mailing sales@barnlight.com. BL reserves in its sole discretion the right to determine whether a customer is a “Commercial” customer, whether to extend credit to such customers, and the terms of such credit, all subject to applicable laws.

Until Credit Terms have been extended and approved, payment is due at the time of order.

TAXES
Prices do not include any federal, state or local taxes, or any other taxes or charges imposed by any government authority. Customer is solely responsible for paying all applicable taxes. BL will add sales taxes to the sales price where required by applicable law and Customer will pay such taxes unless Customer provides BL with a duly executed sales tax exemption certificate. BL will not refund tax amounts collected in the event a valid sales tax certificate is not provided.

PRODUCT WARRANTIES & DISCLAIMERS
All lighting products, as shown in this Catalog and stated on www.BarnLight.com, are CSA-Certified. All products, features, specifications and content described in this Catalog and on the Website are subject to change at any time without notice to customers. The inclusion of any products or services in this Catalog or on the Website at any particular time does not warrant that the products or services will be available at any time. Product information provided by BL is not warranted to be correct. Any product measurements or specifications including but not limited to length, width, height, and weight are approximate and provided for convenience only. Product colors may display differently on different devices.

It is the customer’s responsibility to be aware of and obey all applicable local, state, federal and international laws and regulations regarding the possession, use and sale of any item purchased from the Website. By placing a purchase order, the customer represents and warrants that the products ordered will be used in a lawful manner.

Wiring and installation procedures are very complicated and should be attempted by licensed professionals only. Wiring and installation of light products pose serious risk of electric shock which can lead to injury or death. Upon placing a purchase order, the customer acknowledges and agrees to seek the services of a licensed professional to wire and install any product purchased from BL. The customer further waives any claim against BL for any damage or injury which occurs in the wiring or installation of any BL product.

All lighting is warranted by the manufacturer for up to one year to be free of defects in materials and workmanship under normal use and service unless specified otherwise. This warranty will be extended for up to two years on Porcelain Enamel Shades only. We will repair or replace, at our discretion, any product covered under our warranty. No charge backs for materials or labor. Please note that not all finishes are warranted for exterior use. In extreme conditions such as salt water environments, acts of Mother Nature, etc. no other warranties are expressed or implied. Most of our lighting is CSA Listed or made with UL/CSA components; however, please refer to each product’s description to confirm. Light bulbs and the Porcelain Enamel Dinnerware Collection are not included in the limited warranty.
Quick Ship

Featuring the same high quality you have come to expect from Barn Light Electric, our Quick Ship collection features pendants, gooseneck lights, and wall sconces available for shipping in just a few days. Still hand spun from commercial grade materials and assembled in our Florida manufacturing facility, these popular styles can be customized with shade size, finish color, plus mounting and other options. Superior quality, vintage styling, and excellent customer service all available in less time to keep your project on schedule.
