

BARN LIGHT FINISHES

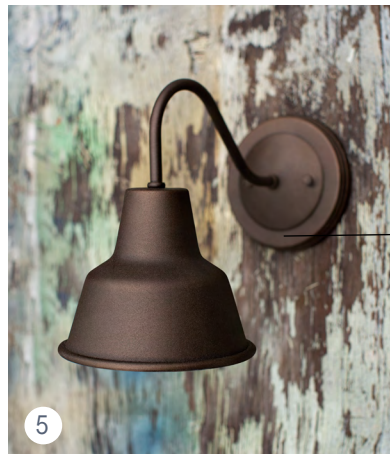

600-BRONZE vs 615-OIL-RUBBED BRONZE

Two of our customers' favorite finishes, 600-Bronze and 615-Oil-Rubbed Bronze, lend a timeless feel to our lighting fixtures. While these colors are similar, each possesses its own unique qualities. 600-Bronze features a smooth sheen, which glistens as it reflects light. The 615-Oil-Rubbed Bronze's textured surface offers a more rustic look.

600-BRONZE

615-OIL RUBBED BRONZE

#1: (2) 12" The Original™ Wall Sconce, 600-Bronze, Cast Guard & Frosted Glass, **#2:** (1) 12" Laramie Pendant, 600-Bronze, SBK-Standard Black Cord, **#3:** Color Sample - 600-Bronze, **#4:** (2) 12" The Original™ Wall Sconce, 615-Oil-Rubbed Bronze, Wire Cage, **#5:** Barn Light Mini Artesia Wall Sconce, 615-Oil Rubbed Bronze, G33 Mini Gooseneck Arm, **#6:** Color Sample - 615-Oil Rubbed Bronze

Which finish is easiest to clean?

Great question! 600-Bronze's smooth, glossy finish is easier to clean. Because of its slightly abrasive surface, the 615-Oil-Rubbed Bronze finish may pose a challenge to clean with paper towels. To clean this textured finish, we recommend an occasional soap-and-water wash with a cloth towel.
