# OUR GUIDE TO
BARN LIGHT GARAGE LIGHTING

Garage lighting plays an important role in the overall exterior lighting plan for any home. The garage not only serves as the access point for many homeowners but is often the first structure visitors see as they approach the home. Stylish, easy-to-customize fixtures from Barn Light Electric offer plenty of illumination without harsh glare while adding the curb appeal you desire!

SINGLE CAR GARAGE

#1: *(2) Drake Gooseneck Lighst (14" Shades, 100-Black, G15 Gooseneck Arms, Cast Guard & Clear Glass),* **#2**: *(2) Original™ Warehouse Gooseneck Lights (18" Shades, 615-Oil-Rubbed Bronze, G22 Gooseneck Arms),* **#3**: *Goodrich® Marathon Porcelain Gooseneck Light (16" Shade, 150-Porcelain Black, G22 Gooseneck Arm),* **#4**: *(2) Chestnut Gooseneck Lights (16" Shades, 995-Raw Copper, G15 Gooseneck Arms),* **#5**: *The Original™ Warehouse Gooseneck Light (14" Shade, 300-Dark Green, G15 Gooseneck Arm)*

Q
A

What are the most popular Gooseneck Arms used for garage gooseneck lighting?
Great question! We have more than 25 Gooseneck Arms and we've seen customers use them all. However, our most popular gooseneck arms include: G22, G15, G11, G3 and G1.

For two-car garages, multiple options exist for lighting including one large fixture over each door, one large fixture between two doors, or smaller fixtures flanking the doors. Depending upon your taste, the amount of light can be manipulated with the type and wattage of bulb. If you choose a guard-and-glass style like the red fixtures above, you can choose clear, ribbed, frosted, or colored glass to control the amount of light emitted.

#1: *(2) Double Market Industrial Guard Sconces (400-Barn Red, TGG-Heavy Duty Guards & Ribbed Glass),* **#2**: *(2) Laramie LED Gooseneck Lights (16" Shades, 100-Black, G32 Gooseneck Arms),* **#3**: *(2) Ashland Gooseneck Lights (10" Shades, 105-Textured Black, G26 Gooseneck Arms),* **#4**: *(2) Ashland LED Gooseneck Lights (10" Shades, 390-Teal, G11 Gooseneck Arms),* **#5**: *Bridgeport Vintage Industrial Gooseneck Light (14" Shade, 150-Black, G15 Gooseneck Arm in 975-Galvanized),* **#6**: *(2) Ashland Wall Sconces (12" Shades, 100-Black),* **#7**: *(2) 18" Original™ Warehouse Gooseneck Lights (18" Shades, 100-Black, G22 Gooseneck Arms in 975-Galvanized),* **#8**: *(2) Brisbane Gooseneck Lights (14" Shades, 600-Bronze, 400-Barn Red Cast Guards, G22 Gooseneck Arms)*

For larger garages with three or more doors, most customers opt for one light over each door. This spreads the light across the width of the building providing plenty of downlighting onto each entry. A variety of mounting options are available to suit different facades, roof overhangs, door styles, and personal tastes. Barn Light Electric garage lighting is easy to customize to suit most any home style!

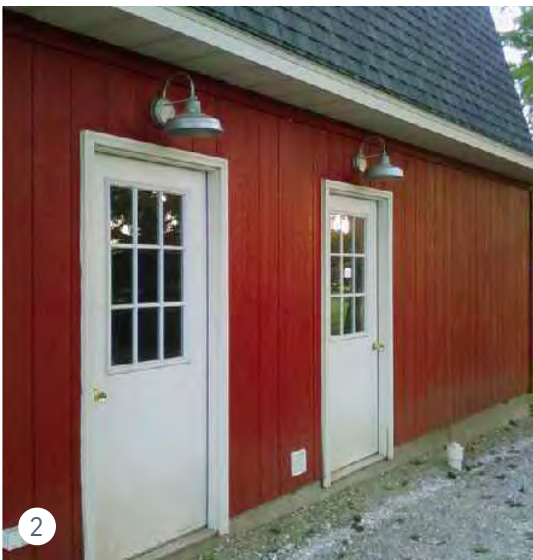

#1: *(4) Rodeo Warehouse Gooseneck Lights (20" Shades, 100-Black, G24 Gooseneck Arms in 975-Galvanized),* **#2**: *(3) Goodrich® Sky Chief Gooseneck Lights (16" Shades, 150-Black, G34 Gooseneck Arms),* **#3**: *(3) Goodrich® Husky Gooseneck Lights (17" Shades, 350-Vintage Green, G19 Gooseneck Arms),* **#4**: *(3) Goodrich® Bomber Rustic LED Gooseneck Lights (15" Shades, 650-Bronze, G14 Gooseneck Arms),* **#5**: *(3) Cherokee Uplight Gooseneck Lights (16" Shades, 601-Chocolate, G11 Gooseneck Arms)*

Many garages have side doors or "man doors" for easy access. To create a cohesive look to your garage lighting, consider using the same style of shade for the side door but in a smaller size. Thanks to Barn Light Electric's array of customizing options, there are multiple sizes, finish colors, and mounting options to choose from for all of our American-made lights.

#1: *(4) Original™ Wall Sconces (14" Shades, 100-Black),* **#2**: *(2) Old Dixie Wall Sconces (13" Shades, 975-Galvanized),* **#3**: *All Weather Gooseneck Warehouse Shade (14" Shade, 100-Black, G31 Gooseneck Arm),* **#4**: *Rochester Vintage Industrial Gooseneck Light (14" Shade, 550-Yellow, G11 Gooseneck Arm in 975-Galvanized),* **#5**: *Goodrich® Sky Chief Porcelain Gooseneck Light (14" Shade, 250-White, G33 Gooseneck Arm in 980-Brushed Aluminum)*
